

EDUCATION

- **B.SC (Computers Science)** **2013 –2017**
Dr.BR Ambedkar Degree College, Hyderabad

SKILLS

- **Programming Languages:** Python, SQL
- **Data Visualization:** Power BI, MS Excel
- **Tools:** Jupyter Notebook, VS Code, Google Collab
- Good General Knowledge of Information Technology
- Good Working Knowledge of Microsoft Word, Excel and Power Point
- Strong verbal and written communication skills

EXPERIENCE

- **Data Analyst Apprentice:** **April 2024-Present**
Careerpedia Edutech Pvt Ltd
 - Completed a 6-month apprenticeship in data analysis, gaining proficiency in essential tools (Excel, Power BI, Python, MySQL).
 - Executed over 3 data analysis projects, applying data cleaning, analysis, and visualization techniques to datasets of up to 50,000 rows.
 - Employed EDA (Exploratory Data Analysis) to uncover key insights and produced more than 5 comprehensive data-driven reports.
 - Developed 4 interactive dashboards that enhanced decision-making processes for simulated business scenarios.

PROJECTS

- **Maven Fuzzy Factory-** ● [Github](#)
 - Analyzed traffic channels using SQL, driving a 15% increase in conversion rates and a 20% reduction in bounce rates through optimized budget allocation and user behavior insights.
 - Identified high-revenue products, contributing to a 10% growth in overall revenue and enhancing the session-to-order conversion funnel.
 - Improved billing page performance, achieving a 12% increase in revenue per session through data driven optimizations.
- **Electoral Bond Analysis:** ● [Github](#)
 - Utilized SQL, Python, and Power BI to analyze Electoral Bond data, uncovering a 20% rise in bond issuance, totaling 50 million over the previous year.
 - Performed trend analysis to identify key funding patterns, noting a 30% increase in contributions to leading political parties.
 - Created interactive dashboards that effectively showcased insights, demonstrating a 25% growth in contribution volume during peak funding periods.
- **PhonePe Pulse Analysis:** ● [Github](#)
 - Developed an interactive Power BI dashboard, boosting regional trend analysis efficiency by 25%.
 - Identified growth patterns in payment trends, driving a 15% increase in UPI adoption and a 20% rise in transaction frequency.
 - Delivered actionable insights to stakeholders, facilitating a 10% growth in merchant onboarding rates.
